

MYN Liquidity Governance & Escalation Policy

(Official Document of the MY™ Token Ecosystem)

Smart Contract Address (BSC): 0x5E66D9Ab3876d0989A3EBB48C56e1dA5DD827ea2

Executive Summary

This Policy establishes the liquidity-floor framework governing MYnCoin (MYN) within the MY™ Token Ecosystem.

It defines operational, compliance, and transparency standards ensuring the token's base value continuously increases and achieves full permanent floor coverage **on or before thirty-six (36) months** from its first centralized or decentralized exchange listing.

1 · Purpose and Scope

This document formalizes the principles, mechanisms, and accountability structure governing MYnCoin liquidity and value preservation on the BNB Smart Chain. It applies to all treasury-managed wallets, authorized exchanges, and liquidity-pair operations associated with the MY™ brand.

2 · Governance Structure

2.1 Ownership Control – Ownership of the MYnCoin contract remains with the MY™ Token Ecosystem until liquidity automation and floor permanence are achieved.

2.2 Custodial Integrity – All treasury actions are executed through multi-signature authorization controlled by compliance officers of B & K Properties NYC, LLC.

2.3 Transparency – All liquidity events, burns, or mint-to-burn actions are logged publicly on BscScan and published through verified MY™ channels.

3 · Liquidity Escalation Mechanism

- 1. Initial Liquidity Pairing:** MYN↔BNB and MYN↔USDT pools are established on decentralized exchanges.
- 2. Locking Principle:** LP tokens remain locked in progressively extending vaults; unlocks occur solely for the purpose of adding new liquidity.

3. **Escalation Rule:** Treasury reserves may only be injected upward; liquidity withdrawal before maturity is prohibited.

4. **Maturity Goal:** Permanent floor coverage **on or before 36 months** following first listing.

4 · Operational Controls

Function	Responsible Entity	Verification Method
Treasury Transfers	MY™ Token Ecosystem Treasury	Multi-sig record
LP Lock Validation	B & K Properties Compliance Team	On-chain hash verification
Buyback & Burn	Authorized Representative	Published TxID
Audit Reporting	Independent Auditor (annual)	Public report link

5 · Audit Reference

The MYnCoin v3 Smart Contract audit (Oct 18 2025) achieved a **Security Grade A**, confirming no overflow, reentrancy, or unauthorized-mint risks. Supply is capped at 17 888 777 MYN (18 decimals) with 1-for-1 burn-to-mint validation.

6 · Annex A – Timeline of Events

Date	Milestone	Status
Aug 25 2025	Smart Contract verified on BscScan	Completed
Oct 18 2025	Security Audit Issued (A Grade)	Completed
Oct 2025	Adoption of Liquidity Governance Policy	Active
Q4 2025 – Q1 2026	Exchange Listing Phase	Pending
+6 Months	First Liquidity Injection Checkpoint	Projected
+12 Months	Second Checkpoint	Projected
+24 Months	Third Checkpoint	Projected
≤ 36 Months	Permanent Floor Coverage Target	Required

7 · Signatures

Authorized Representative – MY™ Token Ecosystem

Name: Ryan Brown Date: 10/28/2025

Compliance Officer – B & K Properties NYC, LLC

Name: Caren Date: 10/28/2025

(Place MYnCoin and MY™ logos side-by-side above signatures; insert sacred-geometry emblem beside B & K footer.)

8 · Notarization Section (Florida Jurisdiction)

State of Florida – County of Palm Beach

Subscribed and sworn before me this 28 day of October 2025,

by Brian moone, Garner Taylor, who is personally known to me or has produced
FLO as identification.
